Y-DNA MATCHES

Match Y-DNA results to other Family Tree DNA customers

If you match someone who has signed a Release Form their name(s) and email addresses are shown below. Since this page refers to you, your name and email will not show up here, just people you match. If the same email address appears multiple times then the people listed are members of a group study which has chosen to make the group administrator a single point of contact. Recent matches are at the top of the list. (** indicates additions since your last login.)

If the individuals with whom you have matches have tested for more markers, you will see next to their names, between parenthesis, the number of markers that they have tested for.
